About the Community Constituency Covid-19 Front

The Community Constituency Covid-19 Front was established (by the NEDLAC Community Constituency and the SANAC Civil Society Forum) as a formal advisory body to facilitate the participation of civil society sectors and networks, including those represented in the national response and implementations of Community-Based Measures in response to the novel Coronavirus (Covid-19). The Community Constituency Covid-19 Front promotes an inclusive, competent and responsive civil society that effectively serves the needs of communities by linking and diversifying civil society actors, expanding the sector's response and ensuring better coordination, thus improving operations, and enhancing connections between civil society organisations with government, business labour, their stakeholders and beneficiaries.

The Covid-19 Front aims to provide a hub of information and contacts for distribution and engagement through our members across the country.
